-Psalm 9:17

THE AMERICAN OCCUPATION

NOT IRAQ

As Americans we must always remember that we all have a common enemy; an enemy that is dangerous, powerful and relentless. I refer, of course, to the federal government. — Dave Barry

When I refer to "The American Occupation" I am not talking about Iraq.

Our nation forgot God and is being turned into hell. We are occupied by a hostile government that masquerades as a protector. This occupation is now over 200 years old.

The occupation of America began in 1787 when a group of conspirators gathered in Philadelphia and drew up a charter (a compact) to facilitate and guide their occult war and conquest of the land and the people. The conspirators ("Founding Fathers") were Freemasons, Illuminati, bankers, war mongers and lying politicians. All these years, Americans have been programmed to think of these criminals as heroes ... much the same as modern Americans have been tricked into thinking that Abraham Lincoln was a beloved hero when in fact he was the most hated president of his day. Remember, history is written by the conquerors.

The conspirators' conquest was not planned with guns and bombs, but with political rhetoric and legalized banking. The use of guns and bombs would be limited to occasional police action to suppress dissent and enforce conformity.

The covert plan was insidious and brilliant in its approach. It was the newest experiment in the legacy of the Beast System. It was called The New World Order, and its mission was to trick people into voluntarily relinquishing their own freedom ... and convince them that it was their own idea.

To this very day most Americans proudly refer to the Founding Fathers and proclaim that we live in a free country, and that we should give our lives, and the lives of our sons, to defend it. Usually, these vain and silly ones have never been to Iraq, or Vietnam, or Waco, or the World Trade Center ruins. They are ignorant, programmed, and blind ... like a herd of contented cattle in a feedlot.

We live in a conquered society that has been under hostile occupation for over two centuries. The occupation consists of a cabal of politicians and bankers. They hold complete rule over America. Policy, economics, wars, and every critical decision regarding the direction of this country are dictated by them

Some Americans think that the government is answerable to "We The People" ... and that citizens are dictating policy through voting and writing letters to Congressmen. It is a convenient illusion ... and it isn't true.

This is difficult to admit. It is sad to watch. And thinking about it can make you angry. The grandest illusions Americans may choose to believe will not make this anything but what it is: a huge lie.

Once the Constitution was in place, and the body of government took root, there was nothing "We The People" could do to reverse its course. Two unpopular issues came to the forefront early. First, was the question of government establishing a federal bank. This was successfully pushed through by Alexander Hamilton and George Washington in 1791. The second was the question of state sovereignty. It was answered in 1794 by Washington sending his federal troops against the "Whiskey Rebellion" in Pennsylvania.

These two events set the precedent, and the power of the Federal Government's supremacy was thus unassailable. It passed and enforced its laws, fomented its wars, and did basically anything it wanted to do from that point on. No one could stop it. The New World Order had evolved to its apex, and remains in place today.

SEAT OF GOVERNMENT

15. When therefore you shall see the abomination of desolation spoken of by Daniel the prophet set up in the holy place, (let the reader understand:)

16. Then let them who are in Judea flee into the mountains:

22. And except those days should be shortened, there should no flesh be saved: but for the called-out those days

shall be shortened.

Mtt. 24:15-22

Wickedness is at its peak when man's system (instead of God's system) is established as the seat of government. Scripture calls this an "abomination."

This occurs when men elect leaders who conspire against God and with other criminals in government to systematically facilitate cheating, oppression, and taking advantage of each other as a way of life. When men resort to their lower criminal nature of stealing, cheating and murdering, they are ready to be politicians, bankers, and policemen. The common level of character within the system is that of an animal ... with no regard to morality and God's laws. Government is a systematic formula to "legally" cheat and steal from each other.

Government is the great fiction, through which everybody endeavors to live at the expense of everybody else.

— Frederic Bastiat

God's word describes, graphically, what happens to us when we stop honoring God's place over us and instead put the Beast System over us in the seat of government (the holy place).

10. Have we not all one father? has not one God created us? why do we deal treacherously every man against his brother, by profaning the covenant of our fathers?

11. Judah has dealt treacherously, and an abomination is committed in Israel and in Jerusalem; for Judah has profaned the holiness of the LORD which he had formerly loved, and has married the daughter of a strange god [i.e., adopted the government of a foreign god].

Mal. 2:10-11

In the above scriptural history lesson, we are warned that when we see this form of abomination occupying the seat of government **it is time to "flee to the mountains" – i.e., withdraw yourself from association with The Beast and go wherever you can, and do whatever you can, to live and think separate from this system.** Obviously, it is not possible for most of us to physically escape all trappings of the system, but it IS POSSIBLE to spiritually and mentally grasp the problem and stop worshipping the Beast System with our loyalties and our spirits ... and begin reprogramming our own minds, and the minds of those we love, to stop looking to the Beast as authority, and begin looking to Christ as our King and our Authority.

We are up against a huge conspiracy to not only rob us of our wealth and labor, but to also dumb us down so as to turn us into non-thinking cattle ... with a depraved nature devoid of God's spirit. Once this is accomplished (and it has been accomplished in nearly all American homes) we not only acquiesce to criminal government, we actually become advocates of criminal government ... campaigning for our

own slavery and poverty.

No man's life, liberty, or property is safe while the legislature is in session.

— Mark Twain

CRIMINALS BY DEFAULT

There is no distinctly native American criminal class except Congress.

— Mark Twain

Here is the part that really chafes. Everyone jokes about the immorality and criminal activity that goes on in Government. But here's something to think about: **when citizens sign on to the "social contract"** (by pledging allegiance, voting, and accepting the rules of citizenship) **they become party to the crime of government.** And those who refuse to stand against it become criminals themselves by default. As petty criminals they lose the moral ground to judge the higher criminals – the devils at the top of government.

As I said, the scheme is brilliant ... and wicked. I've been told that when you lie down with dogs you rise up with fleas. By the same token, when you consort with criminals in government you get tainted with their insanity.

Send a man to Washington and he lives with maggots. What would you expect? And why would a good man want to join the ranks of career deceivers and criminals there?

Why would any father want to send his son or daughter to the brainwashing and torture camps of the US Military to do the dirty work for the murderers and torturers in Washington? Even if the kids come back home alive and physically intact, they are changed and wounded mentally. Boys and girls go into the military as normal kids. Later they come out killers, criminals, unstable and deranged. Most of them don't like what they've become, but there is not much they can do about it. Post traumatic stress disorder, drugs, mental illness, and suicide is their lot. Some become cops ... and that is scary.

Patriots have some odd proclivities. They choose to call crime "patriotism" when it is done by Government and as long as it is winning and profitable. Domestic stealing and cheating is fine also ... as long as it can go by the name of "banking" and "the stock market." Murdering and destroying families is heroic as long as it is called "enforcing the law" or "war." Bombing, murdering and torturing is "doing one's duty" according to the politicians. Blowing up buildings and wrecking cities is honorable when the government says it is.

Few outside the perverted criminals in high office, however, are callous enough to live with the guilt afterward. American boys who aren't so callous come home mentally damaged because of the things they were coerced to do in the name of war.

Man's government is organized crime, and patriots are its benefactors. There is nothing more vile and corrupt than the system of criminals in Washington DC unless it is the system of bankers on Wall Street. These criminals, these old, callous, arrogant fat cats, ought to be the ones to fight their own wars instead of sending young boys and girls. The day these old politicians and bankers are left to fight their

own wars is the day war will end.

The whole aim of politics is to keep the populace alarmed, and thus clamorous to be led to safety, by menacing it with an endless series of hobgoblins, all of them imaginary.

— H.L. Mencken

GULLIBLY GUILTY

In religion and politics people's beliefs and convictions are in almost every case gotten at secondhand, and without examination, from authorities who have not themselves examined the questions at issue but have taken them at secondhand from other non-examiners, whose opinions about them were not worth a brass farthing.

— Mark Twain

Ignorance may be an excuse for doing things wrong. But willful ignorance (choosing to be blind) is inexcusable.

Romans of old went to the Colosseum to be “entertained” by torture and death. The spectators were obviously as corrupt as the men who produced the show.

When truth is offered – when light shines but people run for the cover of darkness – then they are as guilty as the criminals in government who create the false illusions for them and facilitate their cowardice.

Giving money and power to government is like giving whiskey and car keys to teenage boys. — P.J. O'Rourke

THE BEAT GOES ON

(Article taken from the internet. Author unknown –ed.)

While the general public sits in a drugged stupor, as hallucinating television bring them Donald Duck reporting the news, or Porky Pig from the runway at Milan, important things are being said and done ... and going unnoticed by the wider world. Japanese lawmaker and former Chief Cabinet Secretary under Koizumi has had a lot to say about 9/11 and then there is the former president of Italy as well as the one time head of their secret service who has said 9/11 was done by the CIA and Mossad. And then there is the former German Minister, Andreas Von Buelow, who has something to say ... and all those professional airline pilots who speak out ... as well as all those scholars and scientists who have something to say ... and then, there's me. I've got something to say too ... and we'll get to it.

I want everyone reading this essay who is in denial about 9/11 to ask themselves what they base their denial on. Ask yourself, “Why do I believe that Bin Laden attacked the WTC?” Go stand in front of the mirror and ask yourself what your credentials are for determining the scientific aspects of the 9/11 attacks. Ask yourself if you are, or were, at a high level in your government and privy to classified information. Ask yourself if you are trained in the sciences represented by the scholars and eye witnesses who have proclaimed disbelief in the official version of the event, or the commercial pilots who doubt the official version. Ask yourself if that really is Porky Pig talking to you from your

TV set.

The answer to the first question has to be, “Donald Duck told me so.” He may have been dressed like the talking heads who read you your news each day, but it was Donald Duck who actually said it. You believe it because it is what you were told, and nobody is going to tell you different because the people in charge are the good guys ... or they wouldn't be in charge, right?

These are the good guys that told you the proven lies that have led to the mass murders in Iraq. These are the people who orchestrated and are covering up THIS! Go ahead... read it. You see Halliburton, the playground of the vice president, reaping obscene profits from the war and poisoning American soldiers with bad water and you say, “These are the good guys.”

You see Dick Cheney go to Saudi Arabia and right afterwards you see that the Saudis are now preparing for nuclear war and you say, “These are the good guys.”

You see the sub prime mess and the food and energy shortages and the bees dying from genetically modified seeds and all of it because your politicians take their orders from the money men who run the corporations and banks (which, by the way, is the clinical definition of fascism) and you say, “These are the good guys.”

April is here and strange doings are afoot. Al Sadr has shown the world that the U.S. and Israel along with ‘The City’ in London have lost control of the Iraq War, as if they ever had control outside of an insulated bunker on a small piece of real estate. What's a fascist to do?

Next stop Iran. “The good guys” are working out the details of the next false flag event that will justify their long term plans.

Zionist controlled AOL is shutting down websites that question 9/11 while newscasters call for 9/11 truthers to be put in camps.

Twenty eight million Americans are on foodstamps. Isn't that about one in ten people? Repossessed and empty houses are being stripped of their copper and other fittings. And the beat goes on. And the beat goes on.

A person still in possession of a mind would ask himself ... why? You can't say that the people responsible for these things are just stupid and incompetent. You have to know that there is a point to all of this. Ask yourself what this point must be. Why does the big freight train of life seem to be heading for a collective disaster of monumental proportion while your news sources are chattering away like Ritalin infused chipmunks searching for D.B. Cooper's parachute?

I'm not a prophet but you don't have to be a seer to see. Most of you know that the official 9/11 story is garbage. By a wide margin you have been polled and found to have said so and yet... and yet... the beat goes on. High ranking figures in governments around the world are coming out and saying that the CIA and Mossad engineered this event. Scientists and scholars are rebutting every aspect of the lies, and still the beat goes on ... and these are still “the good guys”; over a million dead, people tortured, children raped and... these are still “the good guys.”

It is a dark and dreadful thing, given that 9/11 was done

by the intelligence services of certain governments; that elements of those same governments can imprison and torture men for information they could not possibly have since the events they are being questioned about were carried out by the forces that are torturing them. This is happening in real life.

Mark my words people... the day will come when all of these things will be widely known and you will remember that you did and said NOTHING.

As the arrogant, rogue nation of Israel carries out its genocide on the original inhabitants of the land they occupy, your voice is not heard. Hundreds of thousands of people who have committed no crime live under the iron boot of a merciless regime which has abandoned all pretense of humanity, and it is not only the Palestinians who suffer. And you say nothing because you are ignorant or afraid. You are afraid that you will be tagged with a dreaded label for daring to question the methods and motives of mass murdering demons dressed in human form. Because you cannot stand up, one day you too will kneel and receive the same tender ministrations that others have before you.

It is not a question of maybe this or maybe that any more. The stark truth is there before you in black and white and Technicolor ... and the beat goes on. It is within yourself that you must finally deal with your silence, your indifference and fear. All of the convenient lies that you tell your conscious mind percolate in the depths beneath your awareness and one day... one day they will rise to the surface and convict you as the beat goes on.

There is no hiding place from the truth of your complicity in the tragic events of your time. While you feed in your dreams in the land of plenty, the land of plenty is no more. While you imagine any one of your candidates will address the real issues that surround you, they mouth platitudes and bend the knee to the forces that cause all of the horrors of the time. You will have to answer for why you did and said NOTHING ... as the beat went on.

I gain no pleasure from having to tell you these things. I do not fabricate these things in my imagination. They are there for you to see for yourselves but something within you has failed. Something that should have been there went missing. Some quality that made you human has traveled on to more willing locations and you remain as something indefinable... not human... not yet a beast. But when the thin veneer of civilization is at last stripped away we shall see what you become.

For the moment the music is still playing. You travel to your jobs and you go about your activities and entertainments. Despite all of the evidence of these uncertain times you do believe it's just a rough patch in the road and that mysterious elves will come out in the night while you are sleeping and fix your world. We shall see what "the good guys" have to say about that. We shall see how you dance in time as the beat goes on.

US MEDIA LOOKS THE OTHER WAY

If only America had an independent media and an opposition party. If there were a shred of integrity left in

American political life, perhaps a third act of naked aggression -- a third war crime under the Nuremberg standard -- by the Bush Regime could be prevented.

On March 30, the Russian News Agency, Novosti, cited "a high-ranking security source: *'The latest military intelligence data point to heightened US military preparations for both an air and ground operation against Iran.'*"

According to Novosti, Russian Colonel General Leonid Ivashov said *"the Pentagon is planning to deliver a massive air strike on Iran's military infrastructure in the near future."*

The chief of Russia's general staff, Yuri Baluyevsky, said last November that Russia was beefing up its military in response to US aggression, but that the Russian military is not *"obliged to defend the world from the evil Americans."*

On March 29, Chris Floyd cited a report by the Saudi Arabian newspaper Okaz, which was picked up by the German news service, DPA. The Saudi newspaper reported on March 22, the day following Cheney's visit with the kingdom's rulers, that the Saudi Shura Council is preparing *"national plans to deal with any sudden nuclear and radioactive hazards that may affect the kingdom following experts' warnings of possible attacks on Iran's Bushehr nuclear reactors."*

And Admiral William "there will be no attack on Iran on my watch" Fallon has been removed as US chief of Central Command, thus clearing the way for Bush's and Cheney's planned attack on Iran.

The Iranians don't seem to believe it, despite the dispatch of US nuclear submarines and another aircraft carrier attack group to the Persian Gulf to protect US bases and Saudi oil fields.

If an American president can start a war exactly as Adolf Hitler did, with pure lies, and not be held accountable, he can get away with anything. Bush and his evil regime have.

LOOSE CHANGE

The 9/11 video "LOOSE CHANGE" is the most widely distributed and watched 9/11 exposé to date. Its 2nd edition is new and improved. Its producers encourage everyone to copy it and share it. I have watched it, and I agree that it is perhaps the best one I've seen ... although there are several others that are very good.

I have the newest version and will send you a DVD copy for \$10 (to cover postage and handling).

This video names of the Arabs who were supposed to be on the planes that crashed, but are still alive in their native countries, and what happened to the people and the planes they were on. Everyone needs to see this one.
