

"All these curses shall come upon you, and overtake you." (Deuteronomy 28:15)

VACCINATIONS - A CURSE

CHOICES AND CONSEQUENCES

Our choices reflect what we believe. If we choose to obey God and his law it means we believe in Him. If we choose to invent our own laws it means that we believe in ourselves (or in men).

We can choose to believe what we wish, but it has consequences. God's word tells us very plainly that if we choose to believe in Him and his laws we will be blessed. But if we choose to believe in ourselves and men's laws we will be cursed - meaning that we will suffer the natural consequences of stupid choices. Deuteronomy 28 explains this:

43. *The stranger that is within you shall get up above you very high; and you shall come down very low.*
44. *He shall lend to you, and you shalt not lend to him: he shall be the head, and you shall be the tail.*
45. *Moreover all these curses shall come upon you, and shall pursue you, and overtake you, till you be destroyed; because you hearkened not to the voice of Yahweh your God, to keep his commandments and his statutes which He commands you:*
46. *And they (the curses) are for a lasting sign and for a wonder to you and to your seed.*
47. *Because you served not Yahweh your God with joyfulness, and with gladness of heart, for the abundance of all things;*
48. *Therefore you will serve your enemies which Yahweh shall send against you, in hunger, and in thirst, and in nakedness, and in want of all things: ...*

This is the key to understanding America's problems. We see this in America today. By ignoring the natural laws of God we put ourselves on a slippery slope. It leads to all kinds of unhappy natural consequences. When we ignore

God and place our faith in the flesh, or in men, we automatically bring pain, sorrow, confusion and stupidity upon ourselves ... as surely as night follows day.

Americans have been ignoring God and breaking his laws for a long time. The churches have been teaching Americans that God's common sense laws have been abolished. In fact, the churches actually teach that Jesus did away with God's laws. This insane teaching has brought untold suffering and consequences, including health issues. When we ignore God we become stupid. How else can you explain Americans accepting absurd and stupid ideas?

This is a sign to those whose eyes are open. It means that Americans are inheriting curses. It is affecting their minds. They're losing their capacity for reason and common sense. They are mentally and emotionally debilitated.

13. *But evil men and seducers shall wax worse and worse, deceiving, and being deceived.*
3. *For the time will come when they will not endure sound doctrine; but after their own lusts shall they heap to themselves teachers, having itching ears;*
4. *And they shall turn away their ears from the truth, and shall be turned unto fables.*

2 Timothy 3:13 & 4:3-4

In my March-April Straight Talk I wrote about America's current confusion of words. Our enemies have weakened Americans and enslaved them by redefining and confusing our words. The words we commonly use have been co-opted and changed. This is a powerful tool used by our enemies to turn our words against us, to rob us of communication. This is what always happens when we take our eyes off God and his holy law. We revert back to *"the lust of the flesh, lust of the eyes, and the pride of life"* (1 John 2:16).

God offers us life, but He allows us to choose death if we insist. We read this in Deuteronomy 30:15-19:

15. *See, I have set before you this day life and good, and death and evil;*

16. *In that I command you this day to love Yahweh your God, to walk in his ways, and to keep his commandments and his statutes and his judgments, that you may live and multiply: and Yahweh your God shall bless you in the land where you go to possess it.*
17. *But if your heart turn away, so that you will not hear, but shall be drawn away, and worship other gods, and serve them;*
18. *I denounce to you this day, that you shall surely perish, and that you shall not prolong your days upon the land, where you pass over Jordan to go to possess it.*
19. *I call heaven and earth to record this day against you, that I have set before you life and death, blessing and cursing: therefore choose life, that both you and your seed may live:*

Today, Americans are doing stupid things, terrible things, like murdering their babies, and letting doctors inject them with diseased foreign tissue - foreign DNA - from animals (chickens, monkeys, etc.), along with toxic chemicals directly into their children's blood systems.

Vaccines are made from disease viruses or bacteria that have been cultured in tissues of animals, in chicken eggs, or in tissues derived from other humans. The polio vaccine, for example, was developed in the '50s by growing the polio virus in a culture made of kidneys from Green African Monkeys. Many children of my generation died as a result of those polio vaccinations. But the doctors and our government didn't tell us about the ones that died. They only told us about the ones who survived.

POLIO VACCINE CULTURED IN MONKEY KIDNEYS

To learn how the Polio vaccine was sold to a mindless American public back in the '50s, and the skullduggery involved in the pharmaceutical industry, please read Doctor Mary's Monkey, by Edward Haslam. Haslam tells about Dr. Allton Oschner at Tulane University who injected his two grandchildren with the polio vaccine to promote it on TV. It killed his grandson and paralyzed his granddaughter. Nonetheless, he went ahead and promoted the vaccine. The

story of those men who seek the ruination of Americans is a complex mosaic of evil conspiracies hatched up in wicked minds. It is an assault upon our minds and our bodies. It is a tale stranger than fiction. They injected deadly disease into millions of unsuspecting children in public schools,

WHAT ABOUT NATURAL IMMUNITY?

God created us with the natural ability to acquire immunity to diseases. When we are exposed to communicable diseases we can contract the disease in our bodies, which in turn creates antibodies to make us immune. That is the natural and proven way to develop immunity. This natural method has worked for generation after generation. Also, in the case of a disease outbreak, the Bible explains how to quarantine the disease so it does not spread among the population. When these methods, and proper sanitation, are ignored and other methods are tried - like the Polio vaccine, the Flu vaccines, and the MMR (Measles, Mumps, and Rubella) vaccines - then we see plagues and deaths.

The Bubonic Plague (Black Death) in Europe in the 1300s that killed over 100 million was the result of unclean, unsanitary conditions and lack of effective quarantine. The disease was passed by fleas carried by rats. It could have been prevented with proper sanitation and quarantine.

Mass vaccination programs were foisted upon us in the 1950s. The Polio vaccine was the largest. It is popularly credited for stopping Polio. But the truth is the Polio virus simply mutated, became less virulent or infectious, and the disease faded on its own. However, a number of plagues were caused from the vaccine itself.

They injected the foreign virus along with the diseased monkey kidney material, proteins, etc., through the skin and deep into children's bodies, bypassing their natural defenses. The result is that Baby Boomers, to this day, are still dying from the effects and insults from the vaccines. Cancer and heart disease are now the two biggest killers of Baby Boomers, and both can be traced back to the polio jab. Other diseases, like diabetes, lupus, kidney disease, autoimmune diseases, and even AIDS are suspects as well.

Yet, with all this evidence, people today are still allowing themselves and their children to be violated more than ever. Childhood vaccinations are given in batches. The official CDC schedule for children includes 15 shots between birth and 18 months. The little babies aren't even given a chance to develop their immune systems. It is horrifying.

Then, from 18 months to 18 years, another 15 vaccines are required. And, of course, flu shots are recommended every year, and millions of Americans line up to get them in spite of the fact that there is absolutely no way that labs can foresee what kind of flu viruses will develop in an upcoming flu season. Without a sample of the virus they cannot develop a real vaccine. But the flu virus is constantly mutating. No one can predict what form it will take. Their flu vaccines are, at best, a guess - and probably worse than that. It makes absolutely no sense. The labs and the doctors lie about it. Nonetheless, most people continue to line up and get their shots as they are told. They just trust their doctors. They are putting their own health, and that of

their children, at risk for the benefit of the pharmaceutical giants who make billions from the vaccines each year.

The laboratories and pharmaceutical companies that produce vaccines are concerned with profit, not your health. Their vaccines are produced with appalling lack of care. By letting them inject the foreign materials deep into your body you are submitting to health threats you cannot imagine.

As a child in the public schools in the 50s I received the polio vaccinations. I got the first shot, and then later another one called a "booster." I also got a smallpox vaccination. God only knows what health problems I must now battle due to those violations of my young body.

I lost my dear wife, Vicki, two years ago to cancer that was possibly caused by the polio vaccine she received at her school during the 50s.

FORCED VACCINATIONS

At this time there are numerous states, notably New York, that are working to implement mandatory vaccinations for citizens. The major push is, as usual, aimed at children. Thus far they are focusing upon public schools. They are working to get laws passed to force children to be vaccinated before they can be admitted into public schools. I expect the laws will enlarge to include other institutions like hospitals and government jobs - the military is already on board in a big way.

Perhaps the move will convince a few thinking parents to get their children out of the public schools. But, most people will give in and vaccinate their kids. This has the potential to spread across the nation.

Like the home school movement back in the 80s, this will put many to the test. They will have to decide where they stand. Will they cave in and let the Beast System have its way with their children? Or will they stand up against the system, protect their children, and opt out? Time will tell.

MERCK LABORATORIES

Merck Research Laboratories is a multi-billion dollar business today that began as a small company in 1903 in Rahway, New Jersey. Today it is a multinational pharmaceutical company and one of the largest in the world.

MRL (Merck Research Laboratories) produced the polio vaccines in the 1950s. In 1956, Dr. Maurice R. Hilleman became the facility's director of virus and cell biology research. During his tenure, Hilleman and his team also developed vaccines for mumps, measles, chickenpox, pneumonia, meningitis and other diseases.

To Hilleman's credit, he later went on record confessing the slipshod and careless methods they used to produce their vaccines - especially the Polio vaccine. Dr. Maurice Hilleman never received the public recognition of Jonas Salk, Albert Sabin, or Louis Pasteur although he is credited with having developed more human and animal vaccines than any other scientist.

Hilleman detected a simian virus in the monkey kidney cells used to grow polio virus for Merck's polio vaccine. Hilleman later showed that the simian virus, SV40, caused

tumors in hamsters.

The monkeys were imported from Africa and placed in cages together with scores of other monkeys in Merck laboratories. The virus, SV40, spread throughout the caged monkeys. Thus the virus found its way into their kidneys and into the cultures derived from their kidneys. This virus was included with the various materials in the vaccines. The SV40 virus proved to cause cancer.

Listen to Dr. Maurice Hilleman, Merck's head of the vaccine division in the '50s, tell of his experience with the polio vaccine. On your computer please go to <https://www.youtube.com/watch?v=2mwkV5SHTqc>.

Millions of school children in the '50s were given these cancer-laced vaccines. Today, cancer is predicted for approximately one in every three Americans. Diabetes is rampant, along with a number of other plagues affecting Americans. Are we now reaping what we sowed?

FLU VACCINES

Sanofi Pasteur, the vaccine division of Sanofi in New York, is the biggest producer of flu vaccine. They produce millions of flu vaccine doses each year. They culture their vaccines in chicken eggs.

Again, people might want to consider whether they want chicken DNA along with flu virus injected into their bodies. Flu is rarely life threatening unless a person is immune compromised. The advent of antibiotics pretty much conquered the flu and pneumonia dangers. But ramifications from injecting flue vaccine containing foreign DNA from animals, and viruses, deep into your body can cause lasting and serious health problems.

Furthermore, it is proven that flu vaccinations cause flu. Those who get the flu and pneumonia jabs commonly get flu and pneumonia.

This is not surprising when you realize the slipshod and unethical methods used to produce the vaccines. When you get a vaccination you are getting a cocktail of foreign material, unknown debris and contamination, along with the known dangerous ingredients. All this is being injected deep into your body and blood system. The procedure bypasses all your natural God-given protection barriers.

It is a terrible risk with a terrible history of health problems. This is not a sensible thing to do.

When you vaccinate your child, the insult cannot be reversed. You cannot take it back. The toothpaste cannot be put back into the tube. The child is stuck with it for life. You might want to consider this before submitting your child, or yourself, to receive one of the life-altering jabs.

LIES ABOUT VACCINATIONS

The public is told over and over that vaccines are safe and effective. Most people accept these lies and actually believe them. But vaccines are neither safe nor effective. Consider who is telling you that they are safe and effective. These advertisements come from the pharmaceutical giants who make billions of dollars producing them. Not exactly a disinterested and trustworthy source.

They are neither safe nor effective. The manufacturers print on their own product labels and inserts that they are not proven effective in clinical trials, nor are they safe. Billions of dollars have been paid out due to injuries and “adverse events” including deaths caused by the vaccines.

Do you think, for one second, that it’s safe to inject infected African Monkey kidney cells into your muscle tissue? What about a deadly pig virus that’s wiping out millions of swine in China? Is that safe and effective in any way, shape, or form? That’s insanity. That’s deadly violence perpetrated on adults, the elderly, teens, children, infants, and pregnant women.

Vaccines, including the flu shots and the pneumonia vaccines, are highly experimental, dangerous, and unproven. Learn the truth before you opt to be injected with foreign DNA and animal proteins, genetically modified bacteria, deadly viruses, and cells from aborted human fetuses.

Since 1988, there were more than 20,000 law suits in the U.S. for personal damages caused by vaccinations.

DEATHS IN THE U.S. FROM 2004 TO 2015

About 4 Billion dollars in compensation has been paid out to those victims or their survivors. Don’t tell me how “safe” the vaccines are.

MY FAMILY

Back in the 1970s and 1980s there was rising concern about Sudden Infant Death Syndrome (SIDS). Babies under a year old were dying suddenly in their sleep for unexplained reasons. It was called “crib death.” I remember it because we had infants in our home at that time. We were told it was probably caused from laying babies on their stomachs. So we were careful to lay our babies on their backs.

But that explanation seemed highly unlikely to us since babies had been sleeping on their stomachs for centuries.

The truth finally emerged that it was caused by vaccinations given at birth. It made sense. Babies were getting vaccinations and then developing fever and sickness that night. Many parents opted to not give their babies vaccinations. We, too, discontinued the vaccinations. Little by little we began to learn the dangers of vaccinations. Unfortunately, we didn’t wise up until after our first children had gotten some vaccinations. But we came to realized the long term damage we were inflicting upon our babies.

In our family, our first child got her childhood vaccinations and had the usual fever and sickness. Our second

child reacted worse to the shots, so we discontinued them. We finally put two and two together and quit allowing our babies to be vaccinated. Our last two children got no vaccinations, and they were the most healthy with fewer health issues. Vicki and I always felt guilty for not realizing the truth before we put our first two children through that.

A lot of things were coming to our attention in those days. The home schooling issue was getting big. Again, our first two children attended public school for a few years before we got our eyes opened and took them out of public school and taught them at home. Our last two children never saw the inside of a public school. In this case we were able to correct the mistake we had been making by sending our kids to public school.

Unfortunately, we could not reverse the insult caused by the vaccinations. Once the vaccines are injected deep inside the body you cannot reverse or correct it. You cannot un-ring that bell. We were just glad we stopped as soon as we began to realized what was happening.

SAD STORIES

It literally breaks your heart to read the true stories written by parents who took their perfect little healthy babies to get their required vaccinations, and then watched as their babies become feverish, incoherent, paralyzed, lose control of their little bodies, their minds, and become autistic, or they die. This is devastating.

We must also wonder at the doctors and nurses who witness these horrible vaccine reactions. And what about the techs hired to invent studies to cover up any hint of vaccine damage? How do the doctors tell the parents that their child now will never be normal? And they claim it has no connection to the vaccinations. How can they live with themselves? Can the parents ever forgive themselves for stupidly submitting to the abominable practice of injecting plague and poison into their babies and ruining their lives?

Here is one mother’s story:

“I took my daughter in to get her MMR shot at 18 months. That was over 20 years ago. She developed a 107 temperature, went to the ER with a spinal tap and roseola rash. They said it was normal. My daughter didn’t speak again for years. Years and years of struggle and therapy and Dr’s. At 23 years my daughter has an IQ of a 3-5 year old and can never be alone.

“It’s just not worth it. Give us chicken pox, measles etc. I had it all as a kid and I survived and so did the majority of people. The explosion of autism and special needs kids has grown with the increase of vaccines. I pray people will wake up and stop following the propaganda and do your own research.”

Parents are supposed to protect their children. Today, millions of babies are being murdered and/or injured by their mothers - by abortions and vaccinations. Without caring parents children have little chance of survival. By ignoring God’s laws we have brought curses upon this land. I pray that American parents will open their eyes.
